CHARLESTON, June 22.—Arrived.—Steamers Champion, New York; Prometheus, Philadelphia.

RICHMOND, June 22.—The Commercial Convention met at Montgomery White Sulphur Springs, The cities of Richmond, Norfolk, Petersburg, Lynchburg, Farmville, Abingdon, Bristol and Knoxville, were represented. Resolutions were adopted advocating more perfect commercial communication between the South-west and the cities named; protesting against discrimination against any of them, and inviting merchants and planters of Georgia, Mississippi, Alabama and Tennessee to co-operate in extending commercial facilities, that the Mississippi Valley might reach the waters of Virginia.

FORTRESS MONROE, June 22.—The troops sent to the Taylor farm, on Sunday last, to eject the squatters, have returned to the fort.

RALEIGH, June 22.—Kirk, the plunderer, has been commissioned colonel of the second regiment North Carolina State troops, with headquarters at Asheville. He has issued circulars calling for 8,000 recruits.

St. Louis, June 22.—About 150 Chinese arrived last night, and will leave for New Orleans.

Late letters from the plains report that a party of young Indians, belonging to the Arapahoes and Cheyennes, below Arkansas, are on the war path. Several trains have been captured and a number of whites killed. It is very dangerous for trains, mail parties or anybody else to travel below Fort Dodge.

A San Francisco despatch says a train of several wagons and twenty men, near Camp Grant, Arizona, was attacked by Indians, May 27, and one man killed, several wounded and the rest dispersed to the mountains, where it is thought, they have perished. The Indians burned the wagons.

WASHINGTON, June 22.—Woods, the Congressional captive, has safely returned to the Capitol.

The Gulf mail route, heretofore running from New Orleans via Eastern Guy and Key West to Havana, will be re-routed on the 26th of June, for four years. The Postmaster has the discretion of accepting proposals, making either Mobile or New Orleans the initial point of the line. The bidder most likely to secure a contract, is J. K. Roberts, of Florida, who, it is understood, prefers to make Mobile the initial point.

In the House, a petition from merchants, insurance companies and others, for the better security of steam vessels by the use of improved steam gages, was presented. A bill authorizing a bridge over the Missouri River at Omaha, 300 feet span, passed. The Ways and Means Committee reported a bill regulating the collection of internal revenue, and reducing the force in proportion to the reduction of revenue.

The Senate was engaged in discussing the rules.

The Judiciary Committee of the Senate will report favorably upon Ackerman's nomination for the Attorney-Generalship, but will oppose action until Ackerman's arrival here, who is expected to-day.

The agricultural report for the current month shows that the cotton-growers seem determined this year to reduce the price to fifteen cents, with every prospect of doing it. The average is materially increased in every State. The condition of the growing crop in North Carolina is good; in South Carolina, cotton is looking well, except that some complaint of bad stands is made; in Georgia it is late and smaller than usual, from the effects of a drought of five weeks, which terminated June 15, but it is growing vigorously now; the dry time was shorter in Florida and Alabama, and cotton is generally in good condition. Reports from Missouri and Mississippi are still more favorable. From Texas come reports of the backward spring, with cotton late but thrifty and promising. In Arkansas, the average condition of cotton is better than last year. The average of Sea Island cotton in Texas has been increased.

In the Senate, a bill was reported, authorizing a cable to Bermuda. The tax bill was taken up, with a sharp contest over the income tax—Summer and Conkling arguing for abolition. The matter was finally postponed until Thursday. The Senate is in session to-night on the Southern Pacific Railroad.

In the House, a bill allowing Massachusetts over \$500,000 interest on the war of 1812, was amended to the effect that this payment shall close the account. Passed—101 to 61. The President's veto of the bill to extend the patent for Smith & Wesson's pistols, was sustained. During the discussion there was a severe collision between Farnsworth and Butler; Farnsworth showed Butler having received \$2,000 as attorney for the parties desiring the extension. Butler made a retort, that Farnsworth had more beard than brains. Farnsworth replied, whether long or short, no member should be allowed to steal under the shadow of his beard, if he knew it. Mutual and lengthy denunciations followed.

The Commissioner of Internal Revenue has issued regulations regarding distillation from fruit, greatly reducing the burdens of that industry; they are quite lengthy.

Internal revenue receipts to-day, were \$630,000. Boutwell orders that all persons be excluded from the money rooms of the Treasury, except bearers of his orders. The internal revenue receipts for the present fiscal year will reach \$180,000,000; a great excess over previous years and Boutwell's estimate.

The large new hotel, built by a number of Philadelphians, near Downingtown, Pa., as a summer boarding-house, was set on fire by some malicious person, on Saturday night, and totally destroyed. The loss will be over \$100,000, upon which there is a partial insurance.
